PROFILE

With a background in the performing arts and front-end development, I bring both creativity and analytical thinking to every project. I enjoy turning ideas into intuitive digital experiences and thrive both in collaborative teams and when working independently.

EXPERIENCE

GOTHENBURG VIEW

WEB DEVELOPER 2026 - PRESENT

Started as an intern, was retained to complete the project after the internship. Designed and developed a new modern headless website that enhances Karlatornet's online presence and visitor engagement using Next.js, Tailwind CSS, and WordPress as a headless CMS.

RUM FÖR DRAMATIK

GRADUATION PROJECT 2026

Designed and developed a headless website for Rum för dramatik using React and WordPress as a headless CMS. Created a centralized platform with a digital archive, submission system, and CMS that streamlined editorial workflows and strengthened the magazine's digital presence.

SPELINSIKT/GMBL-INSIGHT

WEB DEVELOPER INTERN 2025

Contributed to two client projects: rebuilding a React Native mobile app with a scalable architecture and design system, and developing a React marketing website from scratch using Vite and TypeScript in collaboration with a multidisciplinary team.

GOTHENBURG VIEW

CONCIERGE 2023 - PRESENT

Welcomed residents and visitors, provided customer support and contributed to administrative tasks such as improving internal routines.
